

Your Green Online Saver 26 Weekend Smart Tariff

Terms and Conditions

- Supplies of mains electricity from Iberdrola under the Green Online Saver 26 Weekend Smart Tariff (the "Tariff") will be available until the date when the Tariff is withdrawn by us. All applicants must have a smart meter installed, be a new Iberdrola customer aged 18 years or over, must contract to pay, and continue to pay, for the energy supply under the Tariff by Direct Debit and receive paperless billing to be eligible for the Tariff.
- The Electricity Unit rates include a 26% discount applied to Iberdrola's Standard Electricity Rates. This discount includes a 5% Direct Debit discount and a 2% Paperless Billing discount.
- The discount will apply for 12 months from your supply start date, unless your method of payment or billing changes. We will notify you of any changes that we make to your payment method which will result in the loss of the 5% Direct Debit discount.
- If after your supply start date, you change to paper billing, you will no longer be eligible for the 2% Paperless Billing discount but will remain on the Tariff.
- If, after your supply start date, your payment method changes, you will no longer be eligible for the 5% Direct Debit discount but will remain on the Tariff.
- The PSO Levy and/or any other regulatory or government levy, tax or charge that may be imposed are not fixed and will be charged in line with the prevailing rate.
- If your smart meter is working and communicating correctly, we will use the information provided from the smart meter to measure your energy use at the property.
- If your smart meter is not working or communicating correctly, ESNB will send an estimate of your energy consumption for us to use for the purposes of billing.
- The price you pay for your electricity will depend on when you use this energy. On this Tariff, your price bands are as follows:

Price band	Time of consumption (all local time, IST)
Weekday	All Weekdays, all hours (from Monday 00:00 to Friday 23:59)
Weekend	All Weekend, all hours (From Saturday 00:00 to Sunday 23.59)

If you have signed up to receive additional benefits from your Smart Tariff, the following clauses apply:

- You are deemed to have chosen to allow ESNB to gather half-hourly readings of your energy consumption from your meter and send them to us, as your energy supplier, daily.
- We will provide you with a downloadable file of your historical half-hourly consumption data, relating to the period that we have supplied electricity to you and you have given permission for us to receive your half-hourly consumption data, through your Iberdrola online account.
- If you advise us at any time that you no longer wish to have your half-hourly consumption data gathered by ESNB and sent to us daily, you will no longer be eligible for this tariff and we will;
 - change your tariff to the Green Discount Saver Weekend Smart Tariff, with the same level of discount.
 - amend the frequency we retrieve your information to every two months
 - amend your billing to be based on three meter readings (day, night, peak), every two months
 - you will no longer be able to download your historical half-hourly data as detailed in condition 14, above.Details of your new tariff will be sent out to you if you make this choice.
- If we are informed by ESNB that the signal strength from your meter has degraded and your half-hourly consumption information can no longer be retrieved by ESNB and sent to us daily (resulting in estimation of consumption), we will;
 - amend the frequency we retrieve your information to every two months;
 - amend your billing to be based on three meter readings (day, night, peak), every two months;
 - you will no longer be able to download your historical half-hourly data as detailed in condition 14, above; and
 - contact you to discuss your tariff options.
- These terms and conditions apply in addition to the Iberdrola Gas and Electricity General Terms and Conditions for Domestic Customers, which are available at iberdrola.ie/terms.
